Mustafa Altuntas

Junior Full-Stack Developer

Following my passion I transitioned from ship captain to Junior Full-Stack Developer by completing two intensive full-stack JavaScript bootcamp and self studying for two years. I am originally from Turkey and now live in Netherlands.I have a Dutch Residence Permit with a full work permit. I am a lifelong learner and enthusiastic teacher, always looking for opportunities to share my knowledge and learn from others. I really enjoy solving complex problems learning new technology and you can check my projects from Github or my portfolio page .
